

EcoStruxure™
Innovation At Every Level

5 products to accelerate hotel sustainability

Hotel sustainability initiatives are crucial not just in the design and build phases, but across the entire lifecycle.

Going beyond CO_2 regulation compliance to optimize operational efficiency, driving energy savings can prove to guests, investors, and staff your decarbonization commitment.

Getting there quicker requires transforming operations from manual to digital and automated.

Schneider Electric offers IoT-enabled devices, software and services to help you do just that while simplifying monitoring and reporting requirements.

IoT-enabled solution benefits

- **Advisory services**
  Help push sustainability further, with incremental savings and full optimization over time.
- **Integrated smart software**
  Replace manual efforts by providing automated real-time data acquisition, analysis, and reporting to help with continuous building performance scoring for recertification.
- **Select connected devices**
  Help score initial points toward certification with digital meters, sensors, and smart circuit breakers.

Life Is On | Schneider Electric

Accelerate energy efficiency and sustainability with 5 key EcoStruxure for Hotels products

Product	Enabling features	Benefits
1 EcoStruxure Building Advisor		Learn more
Digitally enabled services to simplify building maintenance and improve performance • Dashboards of tasks • Leverage fault detection • View of CO_2 impacts • Benchmark performance 	• Alarm and condition monitoring • Maintenance optimization • Site health reporting	• Energy efficiency • IAQ management program • Enhanced IAQ strategies
2 EcoStruxure Building Operation		Learn more
Single view across all systems • Maximize electrification • Advanced scheduling • Drive certifications • Comply with regulations 	• BMS software • Workstation • Energy Expert • SmartConnector for energy management and HVAC control • EV charging station integration	• Energy and atmosphere • Indoor environmental quality • Location and transportation
3 Connected Room Solutions for Hotels		Learn more
Delivering the room of the future • Integration at room level • Granular energy metering • Control at the room level • Optimize HVAC 	• Servers and controllers • Room controllers • Insight-Sensor	• Thermal comfort • Interior lighting • IAQ management program • Enhanced IAQ strategies • Acoustic performance
4 EcoStruxure Guest Room Expert		Learn more
Integrated guest room management system to maximize staff efficiency and improve the guest experience 	• BMS integrations • Room controllers • Alarm monitoring	• Energy efficiency • Operation efficiency • Guest satisfaction
5 SpaceLogic Controls and Sensors		Learn more
Suite of connected, IoT-enabled controllers and devices • Digital building foundation • Holistic energy practices • Optimize energy use • Demand-driven ventilation 	• Flow meters • Enterprise servers, edge servers, IO modules, controllers, SP90 smart actuator • Servers, room controllers, air quality sensors, light sensors • Green Premium™ hardware	• Water efficiency • Energy and atmosphere • Indoor environmental quality • Sustainable sites • Materials and resources
